Description

Akyga® AK-AG-01A is a high-quality **power cable** (kettle lead) for devices with **IEC C13** socket. This **1,5 m (4.92 ft) cable** is equipped with British plug **BS 1363 (Type G)**. It has a **fuse** which protects the cable from excessive load. Thanks to this, you can be sure that the connected computer equipment, printer or monitor will not overload the cable, which could lead to its damage.
The cable is compatible with the majority of PC power supplies (ATX, ITX, TFX, SFX) available in our offer.
