

SIMPLEX soft-face mallets • TPE-soft; with cast iron housing and high-quality wooden handle

3001.060

Product Description

This SIMPLEX series 3001 is equipped with the blue TPE-soft insert (series 3201) on either side. This insert is the softest insert of the SIMPLEX line and offers strong impact cushioning for work requiring a light touch. Unlike conventional rubber mallets, it does not leave behind any undesired black marring.

Made of cast iron, the housing comes with an integrated handle protection sleeve that provides for a high level of break resistance.

Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources.

This version is available in sizes ranging from D30mm to D80mm. The Ø 80mm version is also available with an extra short handle (3001.082).

Product features:

- SIMPLEX soft-face mallet with TPE-soft inserts (blue, soft, no marring, strong impact cushioning) on both sides.
- Cast iron housing with integrated handle protection sleeve and excellent break resistance.
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes of D30mm to D80mm.
- D80 mm version also available with an extra short handle (3001.082).
