

SIMPLEX soft-face mallets • Soft metal; with cast iron housing and high-quality wooden handle

3009.080

Product Description

The SIMPLEX series 3009 is equipped with the soft metal insert on either side. Made of aluminium, the silver insert (series 3209) is hard, heat-resistant and a replacement for a classic lead hammer. Made of cast iron, the housing comes with an integrated handle protection sleeve that provides for a high level of break resistance. Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt. In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources. This version is available in sizes ranging from D30mm to D80mm and as a sledge hammer (3009.081).

Product features:

- SIMPLEX soft-face mallet with soft metal inserts (silver, hard, heat-resistant) on both sides
- Cast iron housing with integrated handle protection sleeve and excellent break resistance.
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes ranging from D30mm to D80mm and as a sledge hammer.

Application Areas

High impact, straightening work, mould construction, plant construction, assembly, repair and maintenance work

Material

Inserts

- Soft metal, silver
- hard
- Heat-resistant

Housing

- Cast iron

Handle

- Wood
