

Housing for SIMPLEX splitting axe

3011.750

Product Description

This cast steel housing has been developed specially for the SIMPLEX splitting axes. It comes with an integrated handle protection sleeve, protecting the handle in case of mis-strikes. Robust and dampening vibrations, the housing is very durable and offers excellent break resistance - not least thanks to its wear-resistant powder coating. Its weight of 990g makes the splitting axes more top heavy and thus contributes to great splitting action.

Only SIMPLEX splitting axe spare parts may be installed into this housing!

An upgrade to this version translates to savings in both money and resources.

Product features:

- Cast steel housing for SIMPLEX splitting axes
- With integrated handle protection sleeve
- Excellent break resistance
- No chipping
- Vibration-dampening
- With wear-resistant powder coating
- Very durable
- Its weight of 990g provides for the great top heaviness and good splitting action of the splitting axes
- Can be retrofitted, resulting in great savings in cost and resources
- Only SIMPLEX splitting axe spare parts may be installed into this housing!

Noise-dampening, vibration-reducing, high resistance to breakage, integrated handle-protection sleeve, extremely durable, robust, no chipping or cracking, robust powder coating

Material

Housing

- Cast iron

Assembly

Only Simplex splitting axe replacement parts are allowed to be mounted in cast iron housing 3011.750!
