

SIMPLEX soft-face mallets • Rubber composition; with aluminium housing and high-quality wooden handle

3102.040

Product Description

The SIMPLEX series 3102 is equipped with the rubber composition insert on either side. This medium hard rubber insert (series 3202) is an absolute top seller. Ultra low-wear, impact cushioning and odourless, it offers a much longer service life than a conventional rubber hammer. The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force. This makes it a cinch to process materials that break easily. Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt. In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources. This version is available in sizes ranging from D30mm to D60mm.

Product features:

- SIMPLEX soft-face mallet with rubber composition inserts (black, medium hard, impact cushioning, odourless, low-wear) on both sides.
- The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force (ideal of work on materials that break easily).
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes of D30mm to D60mm
