

SIMPLEX soft-face mallets • TPE-soft; with reinforced cast iron housing and fibre-glass handle

3701.050

Product Description

This SIMPLEX series 3701 is equipped with the blue TPE-soft insert (series 3201) on either side. This insert is the softest insert of the SIMPLEX line and offers strong impact cushioning for work requiring a light touch. Unlike conventional rubber mallets, it does not leave behind any undesired black marring.

The black, reinforced cast steel housing provides for greater stability thanks to the enlarged wall thicknesses and struts. The increase in weight ensures greater impact force.

Extremely rugged and durable, the fibre glass handle offers exceptional break resistance. It is shaped ergonomically and includes a non-slip handle. It possesses a smooth surface and is inorganic (non-sensitive to moisture).

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted.

This translates to savings in both money and resources.

This version is available in sizes ranging from D30mm to D80mm.

Product features:

- SIMPLEX soft-face mallet with TPE-soft inserts (blue, soft, no marring, strong impact cushioning) on both sides.
- Reinforced cast steel housing with great stability boosts impact force by adding weight.
- Exceptionally rugged and durable fibre glass handle with non-slip grip, inorganic (non-sensitive to moisture).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes of D30mm to D80mm.

Application Areas

For very delicate materials, gardening and landscaping, floor tiling, natural stone setting, furniture assembly, drywall construction, window and door construction, joiner's work

Material

Inserts

- TPE-soft, blue
- Non-marring
- Soft

Housing

- Reinforced cast iron, black

Handle

- Fibreglass with rubber grip
