

SIMPLEX soft-face mallets • Rubber composition; with reinforced cast iron housing and fibre-glass handle

3702.080

Product Description

The SIMPLEX series 3702 is equipped with the rubber composition insert on either side. This medium hard rubber insert (series 3202) is an absolute top seller. Ultra low-wear, impact cushioning and odourless, it offers a much longer service life than a conventional rubber hammer. The black, reinforced cast steel housing provides for greater stability thanks to the enlarged wall thicknesses and struts. The increase in weight ensures greater impact force. Extremely rugged and durable, the fibre glass handle offers exceptional break resistance. It is shaped ergonomically and includes a non-slip handle. It possesses a smooth surface and is inorganic (non-sensitive to moisture).

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources.

This version is available in sizes ranging from D30mm to D80mm and as a sledge hammer (3702.081).

Product features:

- SIMPLEX soft-face mallet with rubber composition inserts (black, medium hard, impact cushioning, odourless, low-wear) on both sides.
- Reinforced cast steel housing with great stability boosts impact force by adding weight.
- Exceptionally rugged and durable fibre glass handle with non-slip grip, inorganic (non-sensitive to moisture).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes ranging from D30mm to D80mm and as a sledge hammer.

Application Areas

Gardening and landscaping, paving curbstone setting, masonry and stair work, fence construction, scaffold construction, tent construction, prefabricated house construction, carpenter's work, maintenance / repair work

Material

Inserts

- Rubber composition, black
- Medium hard
- Impact cushioning
- Odorless
- Low-wear

Housing

- Reinforced cast iron, black

Handle

- Fibreglass with rubber grip
