

Multitite FCE-PU-V0 black:
Flexible, extra robust, halogen free
low smoke, wide temperature range
and extra chemical resistant.

Type FCE-PU-V0 is particular used for applications where medium to heavy mechanical protection is needed in combination with flexibility movements at higher and lower temperatures with an halogen-free cover, like in the subway-, train- and bus-building industry. The IP68 fittings provide the excellent liquid-tightness which is needed for "rolling stock". Type FCE-PU-V0 is also used in situations where a better chemical resistance is required.

Material & Construction:

Construction: Galvanised steel core, square-locked with thin wall convoluted thermoplastic (PU compound) cover. Type FCE-PU-V0 is made out of thicker and higher performance strip gauge compared with FCD.

Cover specifications: Polyurethane (V0 acc. UL94), halogen-free, leadfree according to RoHS, oil, sunlight and UV resistant.

Special approvals, flame properties according to:

- EN 45545:

R22 (interior equipment) class HL1 and HL2

R23 (exterior equipment) class HL1 and HL2.

(ITCpnl = 0,15 , Ds max = 239,8 and LOI = 30,5).

Temperature: -50°C to +105°C, intermittent up to +125°C.

Colour: Black.

Classification according NEN-EN-IEC 61386:

Compression resistance: Class 4, Heavy (1250 N).

Impact resistance: Class 4, Heavy (6 J).

Tensile strength: Class 4, Heavy (1000 N).

Protection class: IP 67 (dust-proof, water-tight).

Square locked

ANACONDA MULTITITE

FITTINGS FOR MULTITITE IP 54

Anaconda IP 54 nickel plated brass fittings for Multitite FCD and FCE.

These nickel plated brass Anaconda fittings are standard fittings which can be used with Anaconda Multitite type FCD and FCE. The 2-piece Anaconda fittings are universal fittings and offer great corrosion protection in combination with a slim appearance.

Material & Construction:

Construction: Nickel plated brass fitting, consisting of 2 parts (body and cap).

Material: Body and cap are nickel plated brass.

Temperature: -55 °C till +260 °C continuous.

Protection class: IP 54.

Colour: Metal.

ISO straight fitting, fixed, male, nickel plated brass.

Anaconda IP 65 nickel plated brass fittings for FCD & FCE.

The nickel plated brass Anaconda IP 65 fittings can be used with Anaconda FCD and FCE conduits. This Anaconda fitting offers besides a good corrosion protection also a higher degree of protection, IP 65, and a nice appearance. Because the design is universal up to 1", all types of Anaconda fittings are possible in this range.

Material & Construction:

Construction: Nickel plated brass fitting, consisting of 4 parts (counter nut, clamping ring, ferrule and body).

Material: Counter nut and body are nickel plated brass. Ferrule is from passivated brass and clamping ring is from PA6.

Temperature: -45 °C till +105 °C continuous, (cable-hose-fittings are -40 °C till +100 °C).

Protection class: IP 65.

Colour: Metal.

Anaconda IP 68 nickel plated brass fittings for FCD & FCE.

The nickel plated brass Anaconda IP 68 fittings can be used with Anaconda FCD and FCE conduits. This Anaconda fitting offers besides a good corrosion protection also a high degree of protection, IP 68, and a nice appearance. Because the design is universal up to 1" all types of Anaconda fittings are possible in this range.

Material & Construction:

Construction: Nickel plated brass fitting, consisting of 5 parts (counter nut, filler ring, sealing sleeve, ferrule and body).

Material: Counter nut, filler ring, ferrule and body are nickel plated brass. Sealing sleeve is NBR-rubber.

Temperature: -45 °C till +105 °C continuous, (cable-hose-fittings are -40 °C till +100 °C).

Protection class: IP 68 (dust-proof, water-tight).

Swivel fittings are limited to IP 67.

Colour: Metal.
