

Pre-centring pin VZ-R-12-22-K-ESD

Item 23056

GO TO PRODUCT

ingun[®]

Partner for Future Technology

- Trusted pre-centring pins for positioning the DUT on the probe field
- Einfache, schnelle Montage auf der Andruckplatte

Verwendung

Vorzentrierungen (VZ) werden auf der Andruckplatte montiert und dienen als Einlegehilfe, um Leiterplatten einfach und schnell auf dem Nadelbett vor zu positionieren.
