Input voltage:	22V ÷ 30V																																												
Voltage shutdown:	20V																																												
Output voltage:	230VAC																																												
Surge power:	400VA																																												
Rated power:	200VA																																												
Output wave form:	Modified sine wave																																												
Motor soft start:	NO																																												
Overload protection:	YES																																												
Shortcut protection:	YES																																												
Thermal protection:	YES																																												
Overvoltage protection:	30 VDC																																												
Low voltage alarm:	YES																																												
Operating temperature:	0 ~ +40°C																																												
Efficiency:	> 85%																																												
Cooling:	Active																																												
Terminals:	Car Cigarette Plug																																												
230V socket:	1 pcs																																												
Case:	Aluminium																																												
Protection:	IP21																																												
Dimensions [mm]:	145x76x54																																												
Weight [kg]:	0.365 kg																																												
Product code:	5905279203662

PROGRAM REGIONALNY
NARODOWA STRATEGIA SPÓJNOŚCI

Projekt współfinansowany przez Unię Europejską z Europejskiego Funduszu Rozwoju Regionalnego oraz z budżetu państwa.
