

Data sheet Product SK 429 37,5 SA

- [Print data sheet](#)
- [Recommend page](#)

Profile heatsinks and liquid coolers>Standard extruded heatsinks

54 x 55 mm

Features

width:	54 mm
--------	-------

height:	55 mm
---------	-------

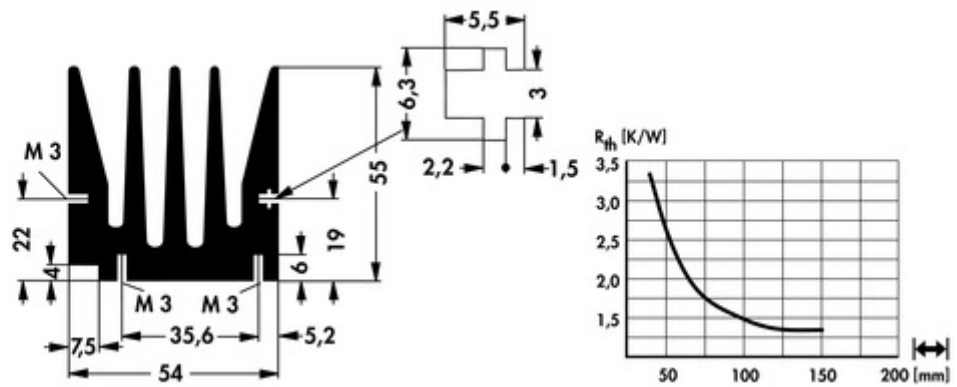

plate thickness:	8 mm
------------------	------

length:	37.5 mm
---------	---------

thermal resistance:	3.35 - 1.3 K/W
---------------------	----------------

surface:	black anodised
----------	----------------

custom processing:	• individual CNC machining • desired length
--------------------	---
